(c) if not, what are the details of the steps Government are taking to remove this disparity ?

THE MINISTER OF STATE IN THE DEPARTMENTS OF EDUCATION AND CULTURE IN THE MINISTRY OF HUMAN RESOURCE DEVELOPMENT (SHRIMATI KRISHNA SAHI) : (a) to (c) Article No. 350(A) of the Constitution stipulates that every State and local authority within the State should try to provide adequate facility for instruction in mother tongue at the primary stage of education to children belonging to linguistic minority groups In pursuance of this stipulation the policy of the Government has been that at primary stage instruction in the medium of mother tongue should be arranged for students belonging to linguistic minorities when such a facility is desired by at least 40 students in a school or 10 in a class. At secondary stage similar facility should be provided if at least 60 students in the last four classes and 15 students in each class desire it Most of the States have generally been following this policy. However, difficulties are being encountered such as administrative and financial feasibility of providing instructional facilities through a variety of mother tongues, difficulty to use some tribal languages as media of education, development of script, preparation and production of textual material, reference books etc.

The Government is not aware of any specific complaint in regard to non-teaching of children at primary stage in Santhali script. Wherever specific instances came to the notice of Government of India of the abovementioned policy not having been followed, the Government has taken up the matter with the concerned State Government.
